

The screenshot shows the NCBI Protein search interface. At the top, there's a banner with the NCBI logo and the word "Protein". Below it is a navigation bar with links for PubMed, Nucleotide, Protein, Genome, Structure, PMC, Taxonomy, OMIM, Books, and a search bar. The search bar contains the text "Nucleotide" and a dropdown menu with "for". To the right of the search bar are "Go" and "Clear" buttons. Below the search bar are tabs for "Limits", "Preview/Index", "History", "Clipboard", and "Details". Under the "Display" tab, it says "default" and "Show: 1". There are also "Send to" and "File" buttons, along with a dropdown menu and a "Get Subsequence" button.
